GREG S. GRIFFIN STATE AUDITOR (404) 656-2174

July 29, 2019

The Honorable Brian P. Kemp, Governor of Georgia
Members of the General Assembly of the State of Georgia
Members of the State Board of Education
and
Superintendent and Members of the
Stewart County Board of Education

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Stewart County Board of Education (School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2 to the financial statements, in 2017, the School District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 77, Tax Abatement Disclosures, GASB Statement No. 80, Blending Requirements for Certain Component Units, and GASB Statement No. 82, Pension Issues. Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedules of Proportionate Share of the Net Pension Liability, Schedule of Contributions to Retirement System, Notes to the Required Supplementary Information and the Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual as presented on pages i through viii, and pages 29 through 33, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The accompanying supplementary information, as listed in the table of contents, is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U. S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

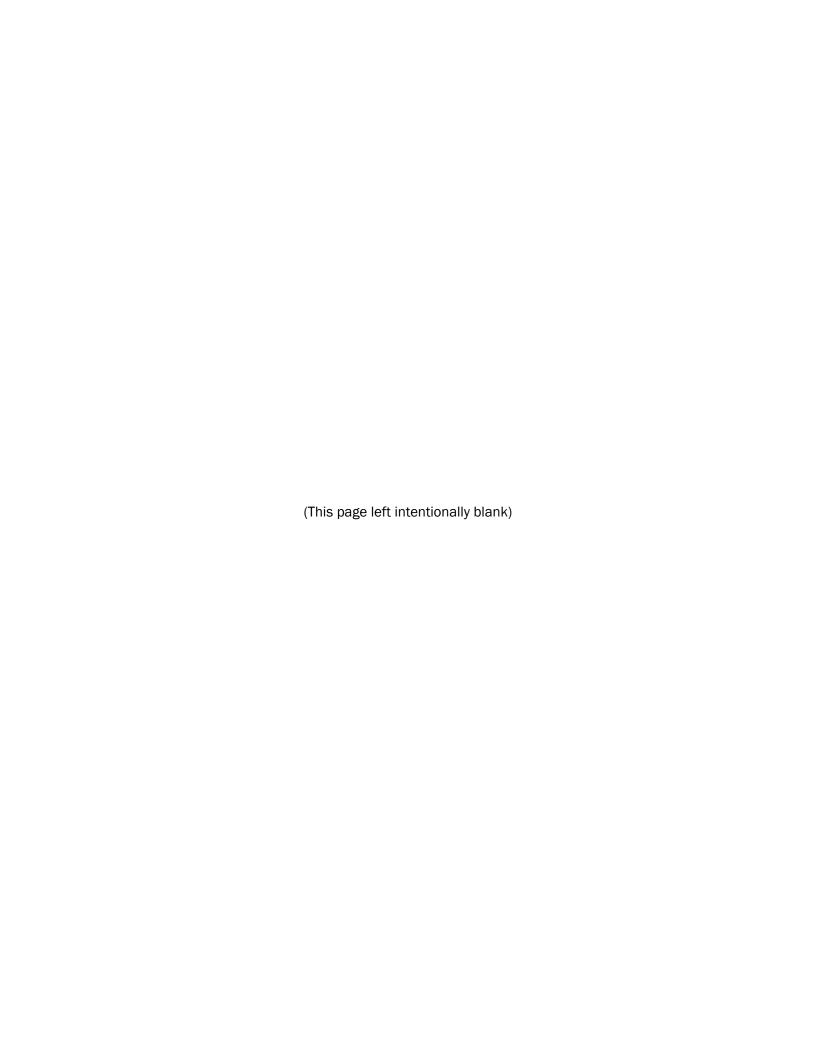

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 29, 2019 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Greg S. Griffin State Auditor

INTRODUCTION

The discussion and analysis of the Stewart County Board of Education's (School District) financial performance provides an overview of the School District's financial activities for the fiscal years ended June 30, 2017 and June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for the fiscal years 2017 and 2016 are as follows:

➤ The School District had \$8,166,969.73 and \$7,432,107.52 million in expenses relating to governmental activities for the fiscal years ended June 30, 2017 and June 30, 2016, respectively. Only \$9,211,655.06 and \$5,235,632.36 of the above mentioned expenses for 2017 and 2016 were offset by program specific charges for services, grants and contributions. General revenues (primarily property and sales taxes) of \$2,924,115.86 and \$2,850,461.37, respectively, for 2017 and 2016, along with fund balance were adequate to provide for these programs.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts; management's discussion and analysis, the basic financial statements and required supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the government-wide and fund financial statements.

The government-wide financial statements include the Statement of Net Position and Statement of Activities. These statements provide information about the activities of the School District presenting both short-term and long-term information about the overall financial status.

The fund financial statements focus on individual parts, reporting the School District's operation in more detail. The governmental funds statements disclose how basic services are financed in the short-term as well as what remains for future spending. The fiduciary funds statements provide information about the financial relationships in which the School District acts solely as a trustee or agent for the benefit of others.

The fund financial statements reflect the School District's most significant funds. For the years ending June 30, 2017 and 2016, the general fund, the capital projects fund, and the debt service fund represent the most significant funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements. Additionally, other supplementary information (not required) is also presented that further supplements understanding of the financial statements.

Government-Wide Statements

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the School District's assets and liabilities. All of the current fiscal year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the School District's net position and how it has changed. Net position, the difference between the School District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, are one way to measure the School District's overall financial health or position. Over time, increases or decreases in net position are an indication of whether its financial health is improving or deteriorating. Changes may be the result of many factors, including those not under the School District's control, such as the property tax base, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District has one distinct type of activity:

➤ Governmental Activities – All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, food service, student activity accounts and various others.

Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds, not the School District as a whole. Some funds are required by State law and some by bond requirements. The School District's major governmental funds are the general fund, the capital projects fund, and the debt service fund.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. These funds are reported using the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are reconciled to the financial statements.

<u>Fiduciary Funds</u> - The School District is the trustee, or fiduciary, for assets that belong to others, such as school clubs and organizations within the principals' accounts. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for fiscal years 2017 and 2016.

Table 1 Net Position

		Governmental Activities					
	•	Fiscal		Fiscal			
		Year 2017		Year 2016			
Assets							
Current and Other Assets	\$	8,747,616.57	\$	8,066,539.65			
Capital Assets, Net		11,068,337.66		6,022,176.64

Beginning Net Position	_	3,820,011.33		3,166,025.12		
Ending Net Position	\$ _	7,788,812.52	\$	3,820,011.33		

Program revenues, in the form of charges for services, operating grants and contributions and capital grants and contributions increased \$3,976,022.70 for governmental activities. This increase is largely due to capital grants received from the Georgia State Financing and Investment Commission (GSFIC) to offset certain construction projects.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity.

Table 3
Governmental Activities
(In Thousands)

Other Support Services	26,600.23		1,773.44		24,002.71		(893.35)
Operations of Non-Instructional Services:							
Enterprise Operations	77,887.38		-		(16,488.06)		(63,969.27)
Food Services	532,610.91		550,702.11		(434,404.29)		(42,068.43)
Interest on Short-Term and Long-Term Debt	141,782.23		-		141,782.23		-
				-		-	_
Total Expenses	\$ 8,166,969.73	\$	7,432,107.52	\$	(1,044,685.33)	\$	2,196,475.16

Expenses increased \$734,862.21 from the prior year, the net costs of providing services decreased \$3,241,160.49. This situation occurred because capital grants were received from the Georgia State Financing and Investment Commission (GSFIC) to offset certain construction projects.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds had total revenues and other financing sources of \$12,143,961.13 and total expenses and other financing uses of \$13,002,768.80. There was a decrease in the fund balance totaling \$858,807.67 for the governmental funds as a whole. This

decrease was due to current construction in progress on the Stewart County School District K-12 facility in which more funds were spent then were received for reimbursement from the Georgia State Financing and Investment Commission (GSFIC) to offset construction projects.

General Fund Budgeting Highlights

The School District's budget is prepared according to Georgia Law. The most significant budgeted fund is the general fund, funded primarily through state revenue and local property tax revenue. During the course of fiscal years 2017 and 2016, the School District amended its general fund budget as needed.

During fiscal year 2017 the general fund had final actual revenues and other financing sources totaling \$7,701,165.39, which represented an increase from the original budgeted amount of \$6,463,192.60 by \$1,237,972.79. This difference (final actual vs. original budget) was due to Federal funds received that were not included in the original budget.

Final actual expenditures during fiscal year 2017 totaling \$7,496,965.78 represented an increase from the original budgeted amount of \$6,332,733.99 by \$1,164,231.79. The increase in actual expenditures versus original budget expenditures was due primarily to Federal fund expenditures not being included in the original budget.

CAPITAL ASSETS

At the fiscal years ended June 30, 2017 and June 30, 2016, the School District had \$11,068,337.66 and \$6,022,176.64 respectively, invested in capital assets, net of accumulated depreciation. These assets are made up of a broad range of capital assets, including land; buildings; transportation, food service and maintenance equipment. Table 4 reflects a summary of these balances, by class, net of accumulated depreciation.

Table 4
Capital Assets
(Net of Depreciation)

	Governmental Activities						
	Fiscal		Fiscal				
_	Year 2017	_	Year 2016				
\$	168,769.24	\$	168,769.24

	302,743.00		402,661.00				
	38,875.00		49,265.00				
\$	11,068,337.66	\$	6,022,176.64				
		Fiscal Year 2017 \$ 168,769.24 5,802,211.42 4,755,739.00 302,743.00 38,875.00	Fiscal Year 2017 \$ 168,769.24 \$ 5,802,211.42 4,755,739.00 302,743.00 38,875.00				

The overall capital assets increased in fiscal year 2017 by \$5,046,161.02 due to current construction in progress on the Stewart County School District K-12 facility.

DEBT ADMINISTRATION

At June 30, 2017, the School District had \$4,712,781.00 in total debt outstanding with \$121,639.06 due within one year. Table 5 summarizes bond debt outstanding at June 30, 2017 and 2016.

Table 5 Debt at June 30

Amortized Bond Premiums		332,781.10		332,781.10				
	_							
Total	\$_	4,712,781.10	\$	4,712,781.10				

CURRENT ISSUES

In fiscal year 2018, the cost of the employer portion of TRS pension will increase approximately \$106,076.31, and an increase in health insurance premiums for non-certified employees is expected to add another \$50,996.40 and increase again in fiscal year 2019.

Approximately 78.46% of general fund expenses, the main operating fund for the School District, were related to salaries and employee benefits for the year ended June 30, 2017. More than a third of certified personnel in the School District have 21 years or more of experience resulting in salaries at the highest possible state pay level. With such personnel heavy expenses, it is difficult to offset mandated expense increases such as TRS and health insurance premium expenses. The School District consistently evaluates how funds can be spent smarter and more effectively to ensure that Stewart County students receive a quality education from effective personnel.

The School District's millage rate for fiscal year 2017 was 15.035. The net digest for fiscal year 2017 was \$162,251,177.00, which produced approximately \$146,092.00 per mill. As shown in Table 2, property tax and sales tax are responsible for covering 33.95% of the School District's costs. It is anticipated that this pressure to provide local monies to meet mandated educational requirements and operational costs will continue.

The most significant challenge facing the School District is the relative uncertainty regarding how School Districts will be funded moving forward. The General Assembly is in the process of exploring new funding formulas that would likely cement in the austerity reductions received annually and change the way personnel salaries are calculated. It is uncertain at this point what type of financial impact these changes might have on the School District's finances.

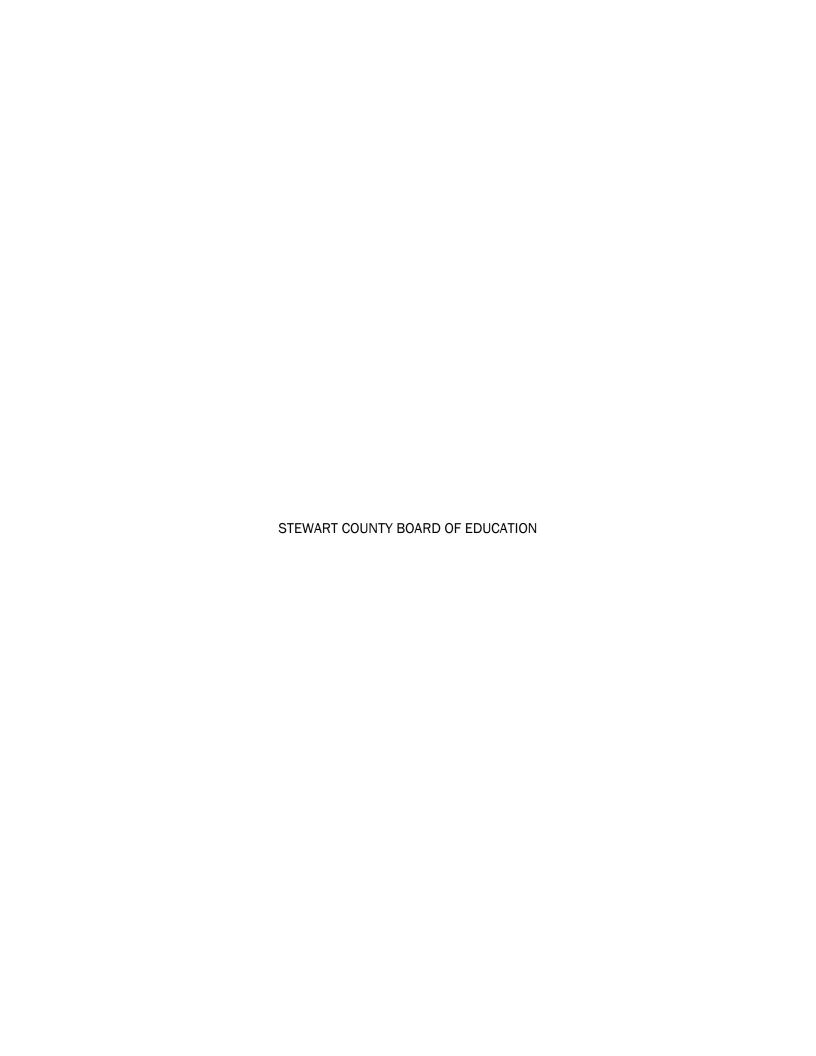

The School District remains vigilant at controlling costs, and maintained general fund expenditures comparable to fiscal year 2016. Year over year spending increases were attributable to state mandated increases for teacher salaries, increased Special Education costs, and increased health insurance costs due to the full implementation of the Affordable Care Act.

Fiscal year 2017 saw the completion of the renovation of the existing Elementary/Middle School. Students started the 2018 school year in the new facilities. The addition of the new High School is expected to be completed in the fall of fiscal year 2018. This project will be fully completed in the fall of 2018 after the construction of the Gymnasium.

Another matter which is of concern to the School District is the impact of GASB No. 75 on the financial statements for fiscal year 2018 and beyond. At this time, the actual amount required to be reported as a liability in fiscal year 2018 is \$6,017,036.00.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Janet Walls at the Stewart County Board of Education, PO Box 547 Lumpkin, GA 31815. You may also email your questions to jwalls@stewart.k12.ga.us.

STEWART COUNTY BOARD OF EDUCATION RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES JUNE 30, 2017

Net change in fund balances total governmental funds (Exhibit "E")

(858,807.67)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.

 Capital outlay
 \$ 5,340,865.02

 Depreciation expense
 (294,704.00)
 5,046,161.02

Capital assets purchased with Universal Service Fund (e-rate) proceeds are not reported in governmental funds. However, in the Statement of Activities, the e-rate proceeds are shown as capital grants and contributions.

Taxes reported in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

(8,447.21)

District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.

Pension expense (152,313.28)

Some items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Accrued interest on issuance of bonds (57,791.67)

Change in net position of governmental activities (Exhibit "B") \$ 3,968,801.19

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Stewart County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a board elected by the voters and a Superintendent appointed by the Board. The School District is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below.

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the government-wide financial statements, fund financial statements and notes to the basic financial statements. The government-wide statements focus on the School District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

GOVERNMENT-WIDE STATEMENTS:

The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Net Position presents the School District's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories as follows:

- 1. **Net investment in capital assets** consists of the School District's total investment in capital assets, net of accumulated depreciation, and reduced by outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.
- 2. **Restricted net position** consists of resources for which the School District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties or imposed by law through constitutional provisions or enabling legislation.
- 3. **Unrestricted net position** consists of resources not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

FUND FINANCIAL STATEMENTS

The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate financial statements are presented for governmental and fiduciary funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- The general fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.
- The capital projects fund accounts for and reports financial resources including Education Special Purpose Local Option Sales Tax (ESPLOST), Bond Proceeds and grants from Georgia State Financing and Investment Commission that are restricted, committed or assigned for capital outlay expenditures, including the acquisition or construction of capital facilities and other capital assets.
- The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned including taxes (sales) legally restricted for the payment of general long-term principal and interest.

The School District reports the following fiduciary fund type:

• Agency funds are used to report resources held by the School District in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes and grants. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. The School District considers all intergovernmental revenues to be available if they are collected within 120 days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-

term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2017, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*. This statement requires governments that enter into tax abatement agreements to disclose the following information; (1) brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients; (2) the gross dollar amount of taxes abated during the period; and (3) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. The adoption of this statement does not have a significant impact on the School District's financial statements.

In fiscal year 2017, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 80, Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14. This statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organization Are Component Units. The adoption of this statement does not have a significant impact on the School District's financial statements.

In fiscal year 2017, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68 and No. 73. This statement addresses certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68. Specifically, this statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The adoption of this statement does not have a significant impact on the School District's financial statements.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, demand deposits, investments in the State of Georgia local government investment pool (Georgia Fund 1) and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated (O.C.G.A.) §45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

The School District can invest its funds as permitted by O.C.G.A. §36-83-4. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity.

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. All other investments are reported at fair value.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (calculated on the first-in, first-out basis). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

PREPAID ITEMS

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items, in both the government-wide and governmental fund financial statements.

CAPITAL ASSETS

On the government-wide financial statements, capital assets are recorded at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at the acquisition value on the date donated. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. The School District does not capitalize book collections or works of art.

Capital acquisition and construction are recorded as expenditures in the governmental fund financial statements at the time of purchase (including ancillary charges), and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Depreciation is computed using the straight-line for all assets, except land, and is used to allocate the actual or estimated historical cost of capital assets over estimated useful lives.

Capitalization thresholds and estimated useful lives of capital assets reported in the government-wide statements are as follows:

		Capitalization	Estimated
	_	Policy	Useful Life
Land		All	N/A
Land Improvements	\$	5,000.00	15 to 80 years
Buildings and Improvements	\$	5,000.00	25 to 80 years
Equipment	\$	5,000.00	5 to 30 years
Intangible Assets	\$	100,000.00	Individually determined

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element, represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time.

LONG-TERM LIABILITIES AND BOND DISCOUNTS/PREMIUMS

In the School District's government-wide financial statements, outstanding debt is reported as liabilities. Bond premiums and discounts and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the life of the bonds using the straight-line method. To conform to generally accepted accounting principles, bond premiums and discounts should be amortized using the effective interest method. The effect of this deviation is deemed to be immaterial to the fair presentation of the basic financial statements. Bond issuance costs are recognized as an outflow of resources in the fiscal year in which the bonds are issued.

In the governmental fund financial statements, the School District recognizes the proceeds of debt and premiums as other financing sources of the current period. Bond issuance costs are reported as debt service expenditures.

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

FUND BALANCES

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The School District's fund balances are classified as follows:

Nonspendable consists of resources that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted consists of resources that can be used only for specific purposes pursuant constraints either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed consists of resources that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. The Board is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned consists of resources constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned consists of resources within the general fund not meeting the definition of any aforementioned category. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

PROPERTY TAXES

The Stewart County Board of Commissioners adopted the property tax levy for the 2016 tax digest year (calendar year) on August 11, 2016 (levy date) based on property values as of January 1, 2016. Taxes were due on December 20, 2016 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2016 tax digest are reported as revenue in the governmental funds for fiscal year 2017. The Stewart County Board of Commissioners bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2017, for maintenance and operations amounted to \$2,366,621,13.

The tax millage rate levied for the 2016 tax year (calendar year) for the School District was as follows (a mill equals \$1 per thousand dollars of assessed value):

School Operations <u>15.035</u> mills

Additionally, Title Ad Valorem Tax revenues, at the fund reporting level, amounted to \$89,293.45 during fiscal year ended June 30, 2017.

SALES TAXES

Education Special Purpose Local Option Sales Tax (ESPLOST), at the fund reporting level, during the year amounted to \$325,190.24 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

NOTE 3: BUDGETARY DATA

The budget is a complete financial plan for the School District's fiscal year and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds, except the various

school activity (principal) accounts, is prepared and adopted by fund, function and object. The legal level of budgetary control was established by the Board at the aggregate fund level. The budget for the general fund was prepared in accordance with accounting principles permitted by the State of Georgia, but not in accordance with accounting principles generally accepted in the United States of America.

The budgetary process begins with the School District's administration presenting an initial budget for the Board's review. The administration makes revisions as necessary based on the Board's guidelines, and a tentative budget is approved. After approval of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality, as well as the School District's website. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final budget. The approved budget is then submitted, in accordance with provisions of O.C.G.A. §20-2-167(c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

The Superintendent is authorized by the Board to approve adjustments of no more than 10% of the amount budgeted for expenditures in any budget function for any fund. The Superintendent shall report any such adjustments to the Board. If expenditure of funds in any budget function for any fund is anticipated to be more than 10% of the budgeted amount, the Superintendent shall request Board approval for the budget amendment. Any position or expenditure not previously approved in the annual budget that exceeds \$2,000.00 shall require Board approval unless the Superintendent deems the position or purchase an emergency. In such case, the expenditure shall be reported to the Board at its regularly scheduled meeting. Under no circumstance is the Superintendent or other staff person authorized to spend funds that exceed the total budget without approval by the Board.

See the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget to Actual in the Supplementary Information Section for a detail of any over/under expenditures during the fiscal year under review.

BUDGETARY/GAAP BASIS RECONCILIATION

In the general fund, accounting principles used in developing budgets on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP).

The primary differences between the budget basis and GAAP basis are:

- 1. The activities for the School Activity Accounts were omitted from the School District's Budget.
- 2. Payments made by the State of Georgia for school district employee retirement benefits are recognized as revenues and expenditures under GAAP but are not included in the Board's Amended Budget.

Thus, there is an accounting basis difference between the budget and actual Statement of Revenues, Expenditures and Changes in Fund Balances in the general fund that is reconciled as follows:

Actual Revenues, GAAP Basis		\$ 7,701,165.39
Various Fund Revenues omitted from Budget	\$ (167,284.08)	
On-Behalf Benefit Contribution	(17,471.00)	(184,755.08)
	· · · · · · · · · · · · · · · · · · ·	
Actual Revenues, Budgetary Basis		\$ 7,516,410.31
Actual Expenditures, GAAP Basis		\$ 7,496,965.78
Various Fund Expenditures omitted from Budget	\$ (173,628.13)	
On-Behalf Benefits Expenditure	(17,471.00)	(191,099.13)
	· · · · · · · · · · · · · · · · · · ·	
Actual Expenditures, Budgetary Basis		\$ 7,305,866.65
Revenues Over Expenditures Budgetary Basis		\$ 210,543.66
Revenues Over Expenditures GAAP Basis		\$ 204,199.61

NOTE 4: DEPOSITS AND CASH EQUIVALENTS

COLLATERALIZATION OF DEPOSITS

O.C.G.A. § 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. § 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110% of the daily pool balance. At June 30, 2017, \$1,595,509.26 of deposits were not secured by surety bond, insurance or collateral as specified above. The School District is working with the affected financial institutions to ensure appropriate levels of collateral are maintained for all of the School District's deposits.

Acceptable security for deposits consists of any one of or any combination of the following:

- (1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
- (2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,
- (3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
- (4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
- (5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
- (6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

(7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At June 30, 2017, School District had deposits with a carrying amount of \$4,414,715.20, and a bank balance of \$4,595,509.26. The bank balances insured by Federal depository insurance were \$250,000.00 and the bank balances collateralized with securities held by the pledging financial institution in the School District's name were \$2,750,000.00.

At June 30, 2017, \$1,595,509.26 of the School District's bank balance was exposed to custodial credit risk as follows:

Uninsured and Uncollateralized	\$	1,595,509.26
Uninsured with collateral held by the pledging financial institution		-
Uninsured with collateral held by the pledging financial institution's trust department or agent but not in the School District's name	_	<u> </u>
Total	\$	1,595,509.26

Reconciliation of cash and cash equivalents balances to carrying value of deposits:

Statement of Net Position Cash and cash equivalents Statement of Fiduciary Net Position	\$ 4,774,301.81
Cash and cash equivalents	(10,168.62)
Total cash and cash equivalents	4,764,133.19
Add: Deposits with original maturity of three months or more reported as investments	630,217.47
Less: Cash on hand Investment pools reported as cash and cash equivalents	80.00
Georgia Fund 1	979,555.46
Total carrying value of deposits - June 30, 2017	\$ 4,414,715.20

CATEGORIZATION OF CASH EQUIVALENTS

The School District reported cash equivalents of \$979,555.46 in Georgia Fund 1, a local government investment pool, which is included in the cash balances above. Georgia Fund 1 is not registered with the SEC as an investment company and does not operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, \$1.00 per share, which approximates fair value. The pool is an AAAf rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2017, was 56 days.

Georgia Fund 1, administered by the State of Georgia, Office of the State Treasurer, is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for the Georgia Fund 1, does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the State of Georgia Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

NOTE 5: CAPITAL ASSETS

The following is a summary of changes in the capital assets for governmental activities during the fiscal year:

	Balances July 1, 2016	 Increases	. <u>-</u>	Decreases	 Balances June 30, 2017
Governmental Activities					
Capital Assets, Not Being Depreciated:					
Land \$	168,769.24	\$ -	\$	-	\$ 168,769.24
Construction in Progress	471,216.40	 5,330,995.02	_	-	 5,802,211.42
Total Capital Assets Not Being Depreciated	639,985.64	 5,330,995.02		-	 5,970,980.66
Capital Assets Being Depreciated					
Buildings and Improvements	10,556,251.00	-		-	10,556,251.00
Equipment	2,117,725.00	9,870.00		-	2,127,595.00
Land Improvements	561,093.00	-		65,344.35	495,748.65
Less Accumulated Depreciation for:					
Buildings and Improvements	5,625,986.00	174,526.00		-	5,800,512.00
Equipment	1,715,064.00	109,788.00		-	1,824,852.00
Land Improvements	511,828.00	 10,390.00	_	65,344.35	 456,873.65
Total Capital Assets, Being Depreciated, Net	5,382,191.00	 (284,834.00)	· -		 5,097,357.00
Governmental Activity Capital Assets - Net \$	6,022,176.64	\$ 5,046,161.02	\$_	-	\$ 11,068,337.66

Current year depreciation expense by function is as follows:

Instruction			\$ 171,183.00
Support Services			
Educational Media Services	\$	8,493.00	
School Administration		4,647.00	
Business Administration		1,100.00	
Maintenance and Operation of Plant		16,701.00	
Student Transportation Services	_	68,894.00	99,835.00
Food Services			23,686.00

\$ 294,704.00

NOTE 6: LONG-TERM LIABILITIES

The changes in long-term liabilities during the fiscal year for governmental activities, were as follows:

		Governmental Activities									
	_	Balance						Balance		Due Within One	
	_	July 1, 2016		Additions		Deductions		June 30, 2017		Year	
General Obligation Bonds	\$	4,380,000.00	\$	-	\$	-	\$	4,380,000.00	\$	105,000.00	
Unamortized Bond Premiums	_	332,781.10		-		-		332,781.10		16,639.06	
	\$_	4,712,781.10	\$_	-	\$	-	\$	4,712,781.10	\$	121,639.06	

GENERAL OBLIGATION DEBT OUTSTANDING

The School District's bonded debt consists of general obligation bonds that are generally noncallable with interest payable semiannually. Bond proceeds primarily pay for acquiring or constructing capital facilities. The School District repays general obligation bonds from voter-approved sales taxes. General obligation bonds are direct obligations and pledge the full faith and credit of the School District.

Of the total amount originally authorized, \$120,000.00 remains unissued. General obligation bonds currently outstanding are as follows:

	Interest						Amount
Description	Rates	Issue Date	Maturity Date		Amount Issued		Outstanding
General Government - Series 2016	2.0% - 3.5%	6/23/2016	8/1/2036	- .\$	4.380.000.00	\$	4.380.000.00
deficial develiment oches 2010	2.070 0.070	0/20/2010	0/ 1/2000	Ψ	+,000,000.00	. Ψ	4,000,000.00

The following schedule details debt service requirements to maturity for the School District's total general obligation bonds payable:

	_	General Ob		Unamortized		
Fiscal Year Ended June 30:		Principal		Interest		Bond Premium
2018	\$	105,000.00	\$	137,650.00	\$	16,639.06
2019		170,000.00		134,900.00		16,639.06
2020		175,000.00		131,450.00		16,639.06
2021		175,000.00		127,075.00		16,639.06
2022		180,000.00		121,750.00		16,639.06
2023 - 2027		990,000.00		522,950.00		83,195.28
2028 - 2032		1,185,000.00		350,525.00		83,195.28
2033 - 2037		1,400,000.00		126,000.00		83,195.24
	_		-		•	
Total Principal and Interest	\$	4,380,000.00	\$	1,652,300.00	\$	332,781.10

NOTE 7: RISK MANAGEMENT

INSURANCE

Commercial Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors or omissions; job related illness or injuries to employees; and natural disasters. Except as described below, the School District carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceed commercial insurance coverage in any of the past three fiscal years.

Georgia School Boards Association Risk and Insurance Management System

The School District participates in the Georgia School Boards Association Risk and Insurance Management System (the System), a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the system. The School District pays an annual premium to the System for its general insurance coverage. Additional coverage is provided through agreements by the System with other companies according to their specialty for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual harassment, molestation and abuse), errors and omissions, crime and automobile risks. Payment of excess insurance for the System varies by line of coverage.

UNEMPLOYMENT COMPENSATION

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the general fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Ве	ginning		Claims and			
	0	f Year		Changes in		Claims	End of Year
	L	iability		Estimates		Paid	Liability
			_	_	_		_
2016	\$	-	\$	9,768.71	\$	9,768.71	\$ -
2017	\$	-	\$	10,161.95	\$	10,161.95	\$ -

SURETY BOND

The School District purchased a surety bond to provide additional insurance coverage as follows:

Position Covered	 Amount
Superintendent	\$ 100,000.00

NOTE 8: FUND BALANCE CLASSIFICATION DETAILS

The School District's financial statements include the following amounts presented in the aggregate at June 30, 2017:

Nonspendable				
Inventories	\$	9,507.03		
Prepaid Assets	_	12,025.25	\$	21,532.28
Restricted				
Bus Replacement	\$	91,044.00		
Continuation of Federal Programs		11,807.31		
Capital Projects		4,559,036.34		
Debt Service	_	174,350.00	_	4,836,237.65
Assigned	_		="	
School Activity Accounts				17,011.13
Unassigned				1,502,805.42
			•	
Fund Balance, June 30, 2017			\$	6,377,586.48

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

It is the goal of the School District to achieve and maintain a committed, assigned, and unassigned fund balance in the general fund at fiscal year-end, not to exceed 15% of the total budget of the subsequent fiscal year. If the unassigned fund balance at fiscal year-end falls below the goal, the School District shall develop a restoration plan to achieve and maintain the minimum fund balance.

NOTE 9: SIGNIFICANT COMMITMENTS

COMMITMENTS UNDER CONSTRUCTION CONTRACTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2017, together with funding available:

		Unearned Executed		Payments through	Funding Available		
Project		Contracts (1)		June 30, 2017 (2)		From State (1)	
	_						
Stewart County K-12	\$	6,577,484.94	\$	5,802,211.42	\$	2,966,699.13	

- (1) The amounts described are not reflected in the basic financial statements.
- (2) Payments include contracts and retainages payable at year-end.

OPERATING LEASES

The School District leases copiers under the provisions of one or more long-term lease agreements classified as operating leases for accounting purposes. Rental expenditures under the terms of the operating leases(s) totaled \$18,205.92 for governmental activities for the year ended June 30, 2017.

The following future minimum lease payments were required under operating leases at June 30, 2017:

	(Governmental
Year Ending		Funds
2018	\$	18,205.92
2019		1,142.16
Total	\$	19,348.08

NOTE 10: SIGNIFICANT CONTINGENT LIABILITIES

FEDERAL GRANTS

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. Any disallowances resulting from the grantor audit may become a liability of the School District. However, the School District believes that such disallowances, if any, will be immaterial to its overall financial position.

LITIGATION

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to have a material adverse effect on the financial condition of the School District.

NOTE 11: POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-Employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Benefit Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (O.C.G.A.) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board). Additional information about the School OPEB Fund is disclosed in the State of Georgia Comprehensive Annual Financial Report. This report can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. For members with fewer than five years of service as of January 1, 2012, contributions also vary based on years of service. On average, members with five years or more of service as of January 1, 2012 pay approximately 25% of the cost of the health insurance coverage. In accordance with the Board resolution dated December 8, 2011, for members with fewer than five years of service as of January 1, 2012, the State provides a premium subsidy in retirement that ranges from 0% for fewer than 10 years of service to 75% (but no greater than the subsidy percentage offered to active employees) for 30 or more years of service. The subsidy for eligible dependents ranges from 0% to 55% (but no greater than the subsidy percentage offered to dependents of active employees minus 20%). No subsidy is available to Medicare eligible members not enrolled in a Medicare Advantage Option. The Board of Community Health sets all member

premiums by resolution and in accordance with the law and applicable revenue and expense projections. Any subsidy policy adopted by the Board may be changed at any time by Board resolution and does not constitute a contract or promise of any amount of subsidy.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "payas-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2017:

For certificated teachers, librarians and regional educational service agencies and certain other eligible participants:

July 1, 2016 – June 30, 2017 \$945.00 per member per month

For non-certificated school personnel:

July 1, 2016 – December 31, 2016 \$746.20 per member per month

January 1, 2017 – June 30, 2017 \$846.20 per member per month

No additional contribution was required by the Board for fiscal year 2017 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

	Percentage	Required
Fiscal Year	Contributed	Contribution
2017	100%	\$ 785,360.40
2016	100%	\$ 736,905.02
2015	100%	\$ 671,395.08

NOTE 12: RETIREMENT PLANS

The School District participates in various retirement plans administered by the State of Georgia, as further explained below.

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description: All teachers of the School District as defined in O.C.G.A §47-3-60 and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. The Teachers Retirement System of Georgia issues a publicly available separate financial audit report that can be obtained at www.trsga.com/publications.

Benefits Provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years.

An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6% of their annual pay during fiscal year 2017. The School District's contractually required contribution rate for the year ended June 30, 2017 was 14.27% of annual School District payroll. For the current fiscal year, employer contributions to the pension plan were \$497,227.26 from the School District.

PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs/formspubs.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The current fiscal year contribution was \$17,471.00.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School District reported a liability of \$6,480,233.00 for its proportionate share of the net pension liability for TRS.

The net pension liability for TRS was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2015. An expected total pension liability as of June 30, 2016 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2016.

At June 30, 2016, the School District's TRS proportion was 0.031410%, which was an increase of 0.000854% from its proportion measured as of June 30, 2015.

At June 30, 2017, the School District did not have a PSERS liability for a proportionate share of the net pension liability because of a Special Funding Situation with the State of Georgia, which is responsible for the net pension liability of the plan. The amount of the State's proportionate share of the net pension liability associated with the School District is \$108,137.00.

The PSERS net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2015. An expected total pension liability as of June 30, 2016 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the School District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2016.

For the year ended June 30, 2017, the School District recognized pension expense of \$649,487.00 for TRS and \$17,728.00 for PSERS and revenue of \$17,728.00 for PSERS. The revenue is support provided by the State of Georgia.

At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TRS				
	Deferred			Deferred	
		Outflows of		Inflows of	
		Resources		Resources	
Differences between expected and actual experience	\$	96,538.00	\$	32,045.00	
Changes of assumptions		167,959.00		-	
Net difference between projected and actual earnings on pension plan investments		819,776.00		-	
Changes in proportion and differences between School District contributions and proportionate share of contributions		114,792.00		169,037.00	
School District contributions subsequent to the measurement date		497,227.26		-	
Total	\$	1,696,292.26	\$	201,082.00	

The School District contributions subsequent to the measurement date of \$497,227.26 for TRS are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	TRS
2018	\$ 81,722.00
2019	\$ 81,721.00
2020	\$ 469,338.00
2021	\$ 347,140.00
2022	\$ 18,062.00

Actuarial assumptions: The total pension liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Teachers Retirement System:

Inflation	2.75%
Salary increases	3.25% – 9.00%, average, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Post-retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service requirements and dependent beneficiaries. The RP-2000 Disabled Mortality table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for the death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

Public School Employees Retirement System:

Inflation	2.75%
Salary increases	N/A
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Post-retirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on TRS and PSERS pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	TRS Target	PSERS Target	Long-term expected real
Asset class	allocation	allocation	rate of return*
Fixed income	30.00%	30.00%	(0.50)%
Domestic large stocks	39.80%	37.20%	9.00%
Domestic mid stocks	3.70%	3.40%	12.00%
Domestic small stocks	1.50%	1.40%	13.50%
International developed market stocks	19.40%	17.80%	8.00%
International emerging market stocks	5.60%	5.20%	12.00%
Alternative	-	5.00%	10.50%
Total	100.00%	100.00%	

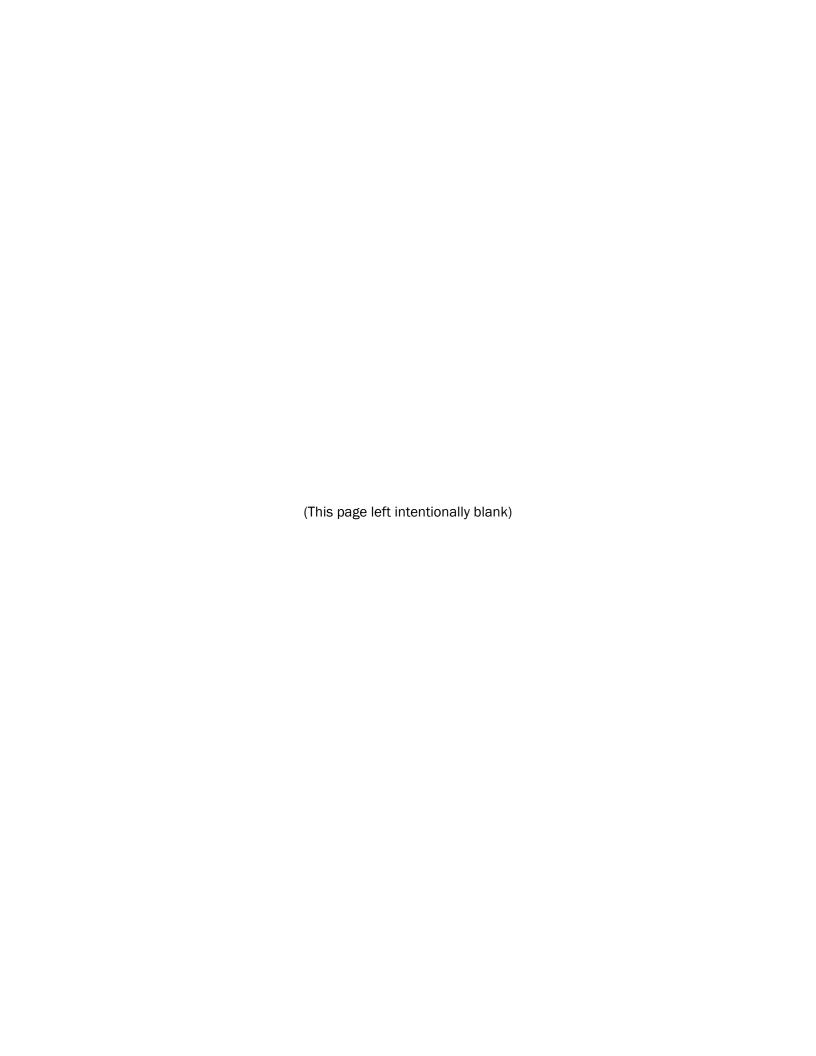

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount rate: The discount rate used to measure the total TRS and PSERS pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the TRS and PSERS pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate: The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

		1% Decrease	(Current Discount	1% Increase
Teachers Retirement System:	-	(6.50%)	_	Rate (7.50%)	 (8.50%)
School District's proportionate share of					
the net pension liability	\$	10,086,563.00	\$	6,480,233.00	\$ 3,511,015.00

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS and PSERS financial report which is publically available at www.trsga.com/publications and http://www.ers.ga.gov/formspubs/formspubs.html.

STEWART COUNTY BOARD OF EDUCATION NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2017

Teachers Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

Public School Employees Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

Notes to the Schedule of Revenues, Expenditures and Changes in Fund Balances Budget and Actual

- (1) Original and Final Budget amounts do not include the budgeted revenues or expenditures of the various principal accounts. The actual revenues and expenditures of the various principal accounts are \$167,284.08 and \$173,628.13, respectively.
- (2) Original Budget amounts do not include the budgeted revenues or expenditures of Food Services Operation.

The accompanying schedule of revenues, expenditures and changes in fund balances budget and actual includes the Original and Final Budget that is presented on a basis other than accounting principles generally accepted in the United States of America (GAAP) as allowed by the State of Georgia. The primary differences between the budget basis and GAAP for fund financial statements include benefit reveneus and expenditures paid on-behalf of the School Distirct and revenues and expenditures of the School Actibity Accounts.

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Basis of Presentation

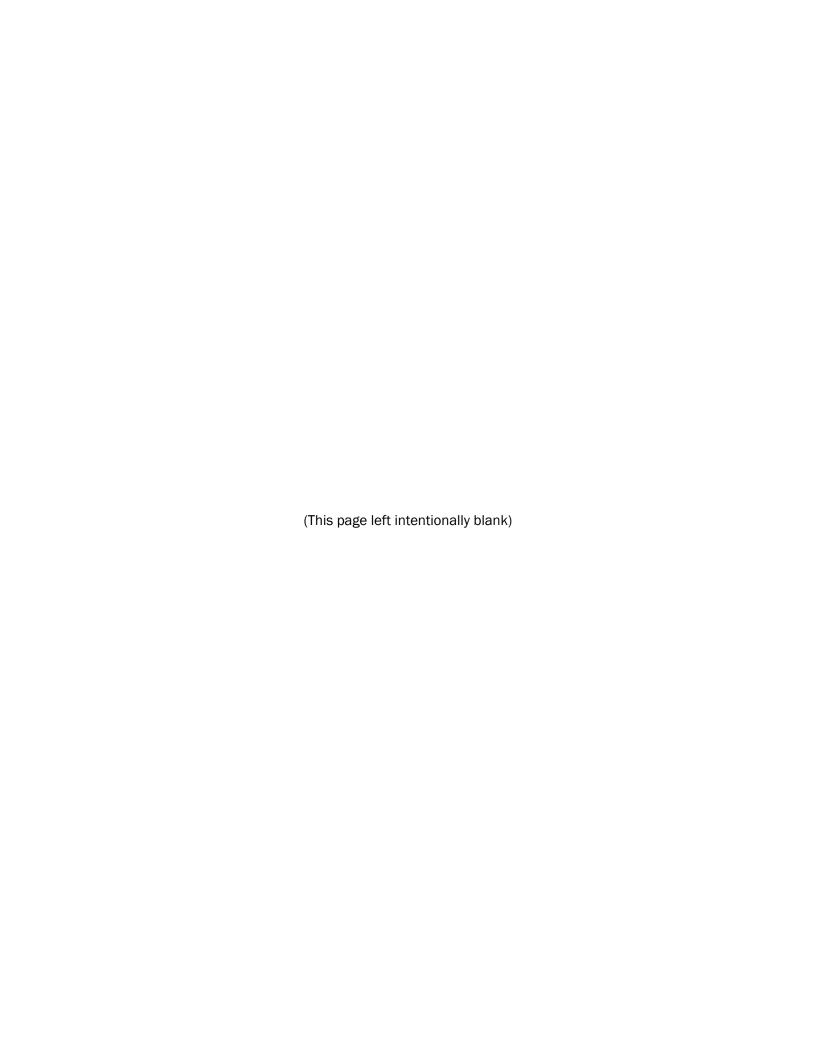

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Stewart County Board of Education (the "Board") under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Board, it is not intended to and does not present the financial position or changes in net position of the Board.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Board has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

⁽¹⁾ The School District's original cost estimate as specified in the resolution calling for the imposition of the Local Option Sales Tax.

See notes to the basic financial statements.

⁽²⁾ The School District's current estimate of total cost for the projects. Includes all cost from project inception to completion.

⁽³⁾ The voters of Stewart County approved the imposition of a 1% sales tax to fund the above projects and retire associated debt. Amounts expended for these projects may include sales tax proceeds, state, local property taxes and/or other funds over the life of the projects.

SECTION II COMPLIANCE AND INTERNAL CONTROL REPORTS

270 Washington Street, S.W., Suite 1-156 Atlanta, Georgia 30334-8400

Greg S. Griffin STATE AUDITOR (404) 656-2174

July 29, 2019

The Honorable Brian P. Kemp, Governor of Georgia
Members of the General Assembly of the State of Georgia
Members of the State Board of Education
and
Superintendent and Members of the
Stewart County Board of Education

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Stewart County Board of Education (School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated July 29, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the accompanying *Schedule of Findings and Questioned Costs* as item FS 2017-001 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District's Response to Findings

The School District's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

They S. Lligg.

Greg S. Griffin State Auditor 270 Washington Street, S.W., Suite 1-156 Atlanta, Georgia 30334-8400

Greg S. Griffin STATE AUDITOR (404) 656-2174

July 29, 2019

The Honorable Brian P. Kemp, Governor of Georgia
Members of the General Assembly of the State of Georgia
Members of the State Board of Education
and
Superintendent and Members of the
Stewart County Board of Education

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited the Stewart County Board of Education (School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017. The School District's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Basis for Qualified Opinion on Child Nutrition Cluster (CFDA 10.553, 10.555)

As described in the accompanying Schedule of Findings and Questioned Costs, the School District did not comply with requirements regarding Child Nutrition Cluster (CFDA 10.553, 10.555) as described in items FA 2017-002 and FA 2017-003 for Procurement and Suspension and Debarment and Reporting. Compliance with such requirements is necessary, in our opinion, for the School District to comply with requirements applicable to that program.

Qualified Opinion on Child Nutrition Cluster (CFDA 10.553, 10.555)

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on Child Nutrition Cluster (CFDA 10.553, 10.555) for the year ended June 30, 2017.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2017.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying Schedule of Findings and Questioned Costs as item FA 2017-001. Our opinion on each major federal program is not modified with respect to this matter.

The School District's response to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as items FA 2017-002 and FA 2017-003, to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item FA 2017-001, to be a significant deficiency.

The School District's response to the internal control over compliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted.

Greg S. Griffin State Auditor

SECTION III

AUDITEE'S RESPONSE TO PRIOR YEAR FINDINGS AND QUESTIONED COSTS

STEWART COUNTY BOARD OF EDUCATION AUDITEE'S RESPONSE SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2017

PRIOR YEAR FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

FS-7281-12-01 Inadequate Internal Controls over School Activity Accounts

Control Category: Cash and Cash Equivalents

Revenues/Receivables/Receipts

Expenditures/Liabilities/Disbursements

Internal Control Impact: Significant Deficiency

Compliance Impact: None

Finding Status: Partially Resolved

Will implement procedures to create a separation of duties in the record keeping, cash recon, and cash management function. Recorded all activity on the general ledger in the current year. These changes will be implemented starting July 1, 2019. Separation of duties will be implemented for expenditures. Five dollar savings account that was donated by the bank will be recorded. Documentation issues will be discussed with the bookkeeper. These changes will be implemented starting July 1, 2019.

No matters were reported.

SECTION IV FINDINGS AND QUESTIONED COSTS

I SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of auditor's report issue:

Governmental Activities; General Fund; Capital Projects Fund; Debt Service Fund; Aggregate Remaining Fund Information

Unmodified

Internal control over financial reporting:

Material weakness identified?Significant deficiency identified?

Yes None Reported

Noncompliance material to financial statements noted:

No

Federal Awards

Internal Control over major programs:

Material weaknesses identified?

Yes

Significant deficiency identified?

Yes

Type of auditor's report issued on compliance for major programs:

Unmodified for all major programs except for Child Nutrition Cluster (10.553, 10.555), which was qualified.

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?

Yes

Identification of major programs:

CFDA Numbers Name of Federal Program or Cluster

10.553, 10.555 Child Nutrition Cluster

84.010 Title I Grants to Local Educational Agencies

Dollar threshold used to distinguish between Type A and Type B programs: \$750,000.00

Auditee qualified as low-risk auditee?

No

II FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

FS 2017-001 Controls over Financial Reporting Process

Control Category: Financial Reporting Internal Control Impact: Material Weakness

Compliance Impact: None

Repeat of Prior Year Finding: FS 2016-002

Description:

The School District did not have adequate internal controls in place over the financial statement reporting process.

Criteria:

The School District is required to maintain a system of controls over the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). The School District's internal controls over GAAP financial reporting should include adequately trained personnel with the knowledge, skills and experience to prepare GAAP based financial statements and include all disclosures as required by the Governmental Accounting Standards Board (GASB).

GASB Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments (Statement), requires governments to present government-wide and fund financial statements as well as a summary reconciliation of the (a) total governmental funds balances to the net position of governmental activities in the Statement of Net Position, and (b) total change in governmental fund balances to the change in the net position of governmental activities in the Statement of Activities. In addition, the Statement requires information about the government's major and nonmajor funds in the aggregate, to be provided in the fund financial statements.

Chapter II – Section 2, Annual Financial Reporting of the Financial Management for Georgia Local Units of Administration provides that School Districts must prepare their financial statements in accordance with generally accepted accounting principles.

Condition:

The following errors and omissions were noted in the School District's financial statements presented for audit:

- o A material audit adjustment totaling \$487,363.11 was proposed and accepted by the client to correctly record capital assets in the government-wide financial statements.
- A material audit adjustment totaling \$452,560.04 was proposed and accepted by the client to correctly record pension activity in the government-wide financial statements.
- o A material reclassification audit adjustment totaling \$630,217.47 was proposed and accepted by the client to correctly record investments in the capital projects fund.
- A material reclassification audit adjustment totaling \$799,125.55 was proposed and accepted by the client to correctly record Georgia State Financing and Investment Commission (GSFIC) revenue in the government-wide financial statements.
- A material reclassification audit adjustment totaling \$3,729,695.46 was proposed and accepted by the client to correctly record net position on the government-wide financial statements.
- o An audit adjustment totaling \$116,923.28 was proposed and accepted by the client to correctly record retainages payable in the capital projects fund.

II FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

 Numerous other audit adjustments and reclassification entries were proposed and accepted by management to properly present the School District's financial statements, notes to the financial statements and schedules.

Cause:

In discussing the deficiency with the School District, they stated that the errors occurred due to a combination of oversights by entity personnel and the consultant who compiles the financial statements.

Effect or Potential Effect:

Material and significant misstatement and misclassifications were included in the financial statements presented for audit. The lack of controls and monitoring could impact the reporting of the School District's financial position and results of operations.

Recommendation:

The School District should strengthen internal controls and procedures over the preparation and review procedures over financial reporting to ensure that the financial statements, including disclosures and schedules, presented for audit are complete and accurate. These procedures should be performed by a properly trained individual possessing a thorough understanding of the applicable GAAP statements, GASB pronouncements, and knowledge of the School District's operations. The School District should also consider implementing the use of a review check sheet to assist in the review process over the financial statements.

Views of Responsible Officials:

We concur with this finding.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

FA 2017-001 <u>Improve Controls over Equipment</u>

Compliance Requirement: Equipment and Real Property Management

Internal Control Impact: Significant Deficiency

Compliance Impact: Nonmaterial Noncompliance
Federal Awarding Agency: U.S. Department of Agriculture
Pass-Through Entity: Georgia Department of Education

CFDA Number and Title: 10.553 and 10.555 Child Nutrition Cluster

Federal Award Numbers: 16165GA324N1099
Questioned Costs: None Identified

Description:

The policies and procedures of the School District did not provide adequate internal controls over equipment and real property management as it relates to the Child Nutrition Cluster.

Criteria:

2 CFR 200.313(d)(1) states "Property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the project costs for the Federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

the disposal and sale price of the property." In addition, 2 CFR 200.313(d)(2) states, "A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years."

Condition:

The School District did not maintain an adequate equipment listing for the Child Nutrition Cluster including location, use and condition of the property percentage of Federal participation in the project costs for the Federal award under which the property was acquired, and source of funding for the property (including the FAIN). In addition, a physical inventory has not been performed in either the current year or the previous year.

Cause:

In discussion with management their deficiencies are due to turn over within School Food Service and new personnel not receiving training on all federal regulations.

Effect or Potential Effect:

Failure to maintain a complete and accurate equipment listing and reconcile results of the physical inventory performed to the property records exposes the School District to unnecessary risk of error and misuse of equipment and/or Federal funds. Additionally, the School District is not in compliance with the Uniform Guidance or Georgia Department of Education guidance.

Recommendation:

The School District should develop and maintain an equipment listing including information on each piece of equipment's cost, acquisition date, location, source of funding, serial number of other identification number, percentage of Federal participation in the project costs, who holds title, use and condition and ultimate disposal data. In addition, management should implement controls to ensure that a physical inventory is performed and reconciled to the property records at least once every two years.

Views of Responsible Officials:

We concur with this finding.

FA 2017-002 Strengthen Controls over Procurement and Suspension and Debarment

Compliance Requirement: Procurement and Suspension and Debarment

Internal Control Impact: Material Weakness
Compliance Impact: Material Noncompliance
Federal Awarding Agency: U.S. Department of Agriculture
Pass-Through Entity: Georgia Department of Education

CFDA Number and Title: 10.553 and 10.555 Child Nutrition Cluster

Federal Award Numbers: 16165GA324N1099

Questioned Costs: None Identified

Description:

The policies and procedures of the School District did not provide adequate internal controls over procurement and suspension and debarment as it relates to the Child Nutrition Cluster.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Criteria:

2 CFR 200.318(a) states in part that the non-Federal entity must "use its own documented procurement procedures which reflect applicable State, local, and tribal laws and regulations, provided that the procurements conform to applicable Federal law". 2 CFR 200.318(b) states in part that the Non-Federal entity "must maintain oversight to ensure that contractors perform in accordance with the term, conditions, and specification of their contracts"

2 CFR 180.300 states in part that the non-Federal entity must "verify that the entity with whom you intend to do business is not excluded or disqualified. You can do this by: (a) Checking System for Awards Management (SAM) exclusions; or (b) Collecting a certification from the entity; or (c) Adding a clause or condition to the covered transaction with the entity."

Condition:

The School District could not provide contract files associated with Child Nutrition Cluster procurement transactions. Therefore, auditors were unable to determine if procurement transactions complied with the School District's procurement procedures, proper oversight was maintained to ensure that contractors were performing according to their contracts, and appropriate reviews were performed to verify that vendors were not suspended, debarred, or otherwise excluded prior to entering into covered transactions.

Cause:

In discussing the deficiency with management, they stated files were misplaced during the consolidation from multiple schools into one school.

Effect or Potential Effect:

Failure to appropriately implement procedures to address procurement and suspension and debarment compliance requirement exposes the School District to unnecessary risk of error and misuse of Federal funds and could result in expenditure of Federal funds with unqualified vendors. In addition, this deficiency could lead to the return of grant funds associated with these unallowable expenditures. Furthermore, the School District is not in compliance with the Uniform Guidance and Georgia Department of Education guidance.

Recommendation:

The School District should evaluate and improve internal control procedures to ensure that required procurement and suspension and debarment documentation is properly identified, safeguarded, and retained. In addition, management should develop a monitoring process to ensure that these procedures are properly implemented.

Views of Responsible Officials:

We concur with this finding.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

FA 2017-003 Improve Controls over Special Reporting

Compliance Requirement: Reporting

Internal Control Impact: Material Weakness
Compliance Impact: Material Weakness
Material Noncompliance
U.S. Department of Agriculture
Pass-Through Entity: Georgia Department of Education

CFDA Number and Title: 10.553 and 10.555 Child Nutrition Cluster

Federal Award Numbers: 16165GA324N1099

Questioned Costs: Unknown

Description:

The policies and procedures of the School District were insufficient to provide adequate internal controls over the monthly Claims for Reimbursement process.

Criteria:

Provisions included in 7 CFR 210.7(c) require that the School District "base Claims for Reimbursement on lunch counts, taken daily at the point of service, which correctly identify the number of free, reduced price and paid lunches served to eligible children" and "correctly record, consolidate and report those lunch and supplemental counts on the Claim for Reimbursement."

Provisions included in 7 CFR 210.8(a)(5) require that the School District "maintain on file, each month's Claim for Reimbursement and all data used in the claims review process, by school."

In addition, provisions included in 7 CFR 220.11(d) state that the School District "shall establish internal controls which ensure the accuracy of breakfast counts prior to the submission of the monthly Claim for Reimbursement."

Furthermore, 2 CFR 200.303(a) states in part that "the non-Federal entity must: (a) Establish and maintain effective internal control over the Federal award that provides reasonable assurances that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations and the terms and condition of the Federal award... (c) Evaluate and monitor the non-Federal entity's compliance with statutes, regulations and the terms and conditions of Federal awards."

Condition:

A review of the School District's Form DE0106 Claim Data reports, which are submitted to the Georgia Department of Education to obtain reimbursement funds, and the corresponding Form DE0112 Daily Record of Number of Breakfasts Served and Form DE0118 Daily Record of Number of Lunches Served, which are prepared by the School District from their School Food Service meal sales system, was performed for every month during the school year. This review revealed that the Form DE0112 and DE0118 reports for the months of July 2016 through December 2016 were not maintained to support the number of students served. The reimbursement funds received during the undocumented months totaled \$227,275.10. In addition, the number of students submitted on the March 2017 Form DE0106 report was greater than the number of meals reported on the Form DE0118.

Ouestioned Cost:

Though questioned costs may exist, these amounts are unknown. Accurate calculations could not be performed due to the lack of supporting documentation for the Form DE0106 reports for the months of July 2016 through December 2016.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Cause:

In discussing the deficiency with management, they stated files were misplaced during the consolidation from multiple schools into one school. Also, the March 2017 Form DE0106 Claim Data report was incorrect due to human error when inputting the meal counts.

Effect or Potential Effect:

Failure to submit accurate monthly Claims for Reimbursement to the Georgia Department of Education and maintain documentation to support those claims could result in the School District obtaining more or less Federal funding than they were eligible to receive. Additionally, the School District is not in compliance with the Uniform Guidance and Georgia Department of Education guidance.

Recommendation:

The School District should implement policies and procedures to ensure the proper documentation is maintained and to ensure Claims for Reimbursement are based on final and accurate meal counts. The School District should become more familiar with the Federal regulations related to the Child Nutrition Cluster in order to develop or modify procedures that will ensure accurate reporting of meals served. Furthermore, management should develop and implement a monitoring process to ensure that controls are properly implemented.

Views of Responsible Officials:

We concur with this finding.

SECTION V MANAGEMENT'S CORRECTIVE ACTION

7168 Green Grove Road - P.O. Box 547 Lumpkin, Georgia 31815 (229) 838-4329 - (229) 838-6984 Fax
